The following report was presented:—

Honorable Board of Aldermen:—

Your Special Committee appointed April 28, 1891, and to whom was referred at said date the resolution adopted April 27, 1891, by the Board of Street and Water Commissioners, requesting a transfer to said Board of all books, papers and ordinances now in possession of the Board of Aldermen relative to the care and management of the public parks and the use and occupation of the streets and public places, and all other matters connected with the city government transferred to the Board of Street and Water Commissioners, under Chapter 134, Laws 1891, etc., respectfully report that upon the organization of the Board of Street and Water Commissioners, Alderman S. H. Smith, Chairman of the Committee on Public Grounds and Buildings, surrendered the custody of the public parks to said Board, and its President, Charles J. Somers, Esq., gave to the City Clerk on April 29, 1891, a receipt for the keys of the tool houses in the parks.

The surrender of other matters demanded in said resolution of April 28, 1891, was deemed worthy of further consideration by your committee.

While no actual tangible property exists, yet the question of authority as to other matters affected by said act was not clear to the minds of your committee, and at present matters are still undecided as to any further surrender.

Your committee, desiring to get the views of the members of your honorable body, caused notices to be issued calling for a meeting at the City Clerk's office on Thursday, May 28, 1891, at 8 o'clock p. m., at which meeting President Allen and Aldermen Day, Dusenbery, McCoobery, McEntee, O'Neill and Salinger were present. The Corporation Counsel, W. D. Edwards, Esq., was also present by invitation.

Considerable time was spent in discussing the situation, but no definite action was determined upon.

Since said meeting the question of the constitutionality of the act and powers thereunder, demanded by the Jersey City Board have been ably and learnedly dis-

cussed by some of the most eminent counsel in this State, in a suit now pending before the Supreme Court of this State. There seems to be a general understanding by counsel representing both sides, that the Legislature did not intend to confer legislative authority upon a Board created by the Legislature and not elected by the people.

The right of self government guaranteed by the constitution is sought to be obliterated by this demand for surrender.

It is a grave question whether the Board of Street and Water Commissioners are competent to grant any franchise for the use of the streets for purposes other than public travel. It is argued by counsel that such authority needs the sanction of the Board of Aldermen. If the Board of Aldermen elected by popular vote is held to be the only legislative authority then follows the question:—

Can the Board of Street and Water Commissioners legislate except so far as they may pass reasonable regulations defining how the streets may be paved or pavement restored, or work done, when franchises for the use of the streets are granted by the Board of Aldermen.

Again, it is argued, that the Legislature have granted the Board of Street and Water Commissioners control of streets, sewers and water.

This is not questioned so far as improvement of streets, construction of sewers or furnishing drinking water for the people are concerned.

The conclusion reached by your Committee is that the people never intended that the Legislature should pass any act conferring upon any Board or the members of any Board created by this act or after the passage of this act any legislative authority theretofore enjoyed by the representatives of the people elected by their votes, and have invariably with such acts, provided for their acceptance or rejection by popular vote.

Your Committee therefore recommend that until the question now before the courts of the State is finally decided that no further action be had.

Respectfully submitted,

P. H. O'NEILL,

M. SALINGER,

Special Committee.

#### MISCELLANEOUS BUSINESS.

The following preamble and resolutions

were offered by Alderman O'Neill:

Whereas, By the provisions of an act entitled "An Act to cede to the Mayor and Common Council of Jersey City certain lands of the State now and heretofore under the tide waters of Communipaw Bay, and to establish a tide water basin adjacent thereto," approved April 4, 1872, there was ceded to the city lands under water in Communipaw Bay, lying between Van Vorst street and Grove street, and extending south from Morris street to the north side of a proposed tide water basin, and containing by said grant about ten acres, and

Whereas, Said act provided further for the establishment of a tide water basin five hundred feet wide, extending from a point west of the line of Jersey avenue, easterly to the waters of the Hudson River, which basin by said act it is declared shall have the effect of a contract so that the said tide water basin shall be and remain such forever, but so that said tide water basin shall be dredged and kept in order without expense to the State, and

Whereas, it was provided by said act that the title so conveyed to the city by the State was upon condition that the city should pay to the State such sum of money as the Board of Riparian Commissioners of the State shall fix and determine, and that said Commissioners should file a map and description of said grant, duly certified copies of which map and description are made by said act, full evidence of the title of the city to the land so described and granted, and that thereafter the city may fill up, reclaim and make wharves of not exceeding two-thirds of the area of said lands or may lease the whole or any part for a term of years, and

Whereas, on December 3, 1872, the Board of Aldermen adopted a resolution accepting the grant and requesting the Board of Finance to issue a bond for one thousand dollars, the sum fixed by the Riparian Commissioners of the State, which resolution was vetoed by Charles H. O'Neill, the Mayor on December 10, 1872, and

Whereas, in answer to a resolution of December 10, 1872, the Corporation Counsel, Wm. A. Lewis, presented an opinion on January 7, 1873, that the Board of Public Works possess the power under the charter to build docks, wharves and piers etc.; and

Whereas, No further action was had until March 2, 1885, when the Board of Public Works adopted a resolution accepting the grant and requesting the Board of Finance to issue a bond for one thousand dollars to the State, which bond was issued March 4, 1885, and paid April 30, 1886; and

Whereas, Because of such delay the Board of Riparian Commissioners of the State, disregarding the action of the city and ignoring the act of the Legislature, made a new division of the property in question, notwithstanding the fact that these Commissioners in their reports for the years 1871 and 1872 called the attention of the Legislature to the fact that Jersey City was without public docks and recommended that a part of the large basin

laid out by the Commissioners in 1864 be conveyed to the Mayor and Aldermen of Jersey City for public use; and

Whereas, Recently the New Jersey Central Railroad Company have laid rails over the territory owned by the city, and have filled in in front thereof in direct violation of law, and by reason of neglect on the part of the city or its officers this valuable grant is rendered inaccessible to our people, and its purpose temporarily, if not completely, destroyed, therefore

Resolved, That the Board of Aldermen of Jersey City, as representatives of the people, elected by their votes, do most earnestly protest against any further delay in the premises, and particularly against such action as permits the loss to the people of the grant of land and the tide water basin mentioned in the foregoing preamble, and demand that encroachment and reprisals by railroad corporations on this particular property of the people shall cease.

Resolved, That recognizing the fact that the multifarious public duties of the Corporation Counsel coupled with a large and successful private practice does not afford that official the time necessary to devote specially to this particular case, this Board do earnestly request the Board of Finance to select some counselor at law, and employ him to assist the Corporation Counsel and Attorney for the purpose of commencing and prosecuting vigorously such legal proceedings as are necessary to place "The Mayor and Aldermen of Jersey City," and the people of Jersey City in full and complete possession of the land, tide water basin, and all the rights, powers and privileges granted and conveyed by said act of April 4, 1872.

Resolved, That copies of this preamble and resolution be sent by the City Clerk to the Board of Finance and Board of Street and Water Commissioners.

The preamble and resolutions were adopted by the following vote the yeas and nays having been ordered and taken on the call of the President:

Yeas—Aldermen Connolly, Day, Dusenberry, Kaiser, Keogh, McEntee, O'Neill and Salinger.

Nays—None.

#### REPORT OF SPECIAL COMMITTEE.

The Special Committee on Legislative Enactments presented a report setting forth that the ordinance now before the Board relative to Fire Escapes is based upon an act of the Legislature of March 24, 1890. The act in question gives to the Board all authority to enforce the provisions of the act, but the first section is too vague, and indefinite in giving to "proper authority" the power to compel the placing of fire escapes without stating what authority the Legislature deemed to be proper." The act further compels the placing of fire escapes on all buildings exceeding one story in height in which twenty or more persons live or congregate.

This provision is capable of too much latitude, and would cover all structures above one-story in height, and will not permit of any discretion by the proper authority when determined.

The committee have caused to be prepared and submitted, the draft of an Act which will give the Board of Aldermen full authority in the premises with discretionary power such as should be enjoyed by the Legislative Board of the City Government the direct representatives of the people.

The following resolution accompanying the report:

Resolved, That the draft of an Act submitted at this meeting by the Committee on Legislative Enactments entitled, "An Act relative to fire escapes in cities" be approved by this Board, and that certified copies of said Act be sent by the City Clerk to the Senator from Hudson county, and Members of Assembly from Jersey City, with a request that they urge the passage of the bill by the Legislature.

The report was received.

On motion of Alderman Smith the first section of the act was amended by making it mandatory of the Board of Aldermen to pass an ordinance, etc.

The City Clerk laid before the Board the following communication from His Honor the Mayor, filed in the City Clerk's office on the 20th inst., and the same was read, received and ordered to be entered in the minutes.

MAYOR'S OFFICE, CITY HALL, }

JERSEY CITY, N. J., Feb. 20, 1892. }

To the Board of Aldermen:

GENTLEMEN—An ordinance to amend an ordinance in relation to the appointment and government of an Inspector of Scales, Weights and Measures, etc., passed February 9, is herewith returned without signature. When the ordinance was first shown to me it seemed to contain useful provisions, but there are others that might work great hardships to innocent store keepers by the summary arrests authorized. But beside that I think the power of the Board to authorize the arbitrary arrest of a storekeeper, and the forcing of him before a Police Court without a warrant by the Inspector of Weights and Measures very doubtful. Storekeepers are not going to abscond because of a notice from the Inspector that they have in their possession, perhaps innocently, a weight or measure that has not been sealed, and if they fail to get the weight or measure sealed it is time enough then to enter a complaint and bring the offender to court in the regular way. But the most troublesome and difficult provision is that in relation to the delivery of coal. When the ordinance was shown to me before its passage I

overlooked a provision which allows the inspector or any police officer to stop a coal cart and order the driver to some distant scale to be weighed. He should be taken to the nearest one. An inspector or officer having a grudge against a particular dealer could require his drivers every day to drive a mile away to be weighed and then drive there again to weigh the empty cart, and it would be very oppressive; the dealer would be driven out of the trade, although he might be perfectly honest and give full weight every time.

Very respectfully,

ORESTES CLEVELAND.
